

# Svezia Car la tua Volvo a Milano!!

## Aperitivo klubben

Dear friends or friends to be,

The extended group at the last aperitivo with Danes, Finns, Norwegians and Swedes has been extremely successful and last time we were joined by the Icelandic community... Furthermore, a Danish gentleman from Lego was the lucky person to win a trip to Copenhagen thanks to SAS!

The next aperitivo is planned for the 14<sup>th</sup> May at Garden Gallery, as usual (Via Meravigli, 3 - MM Cordusio) from 18:45 onwards.

Please kindly confirm your attendance with an e-mail to [info@aperitivoklubben.com](mailto:info@aperitivoklubben.com) prior to the 5<sup>th</sup> May.

We are happy to announce that the next event will be sponsored by **Svezia Car**, the biggest car dealer of Volvo in Italy. On this occasion you will have the opportunity to admire the brand new Volvo XC90.

Welcome, we hope to see you again in May!

Best regards,

Anders Lindholm ([anders.lindholm@mindoor.com](mailto:anders.lindholm@mindoor.com)), Mindoor Executive Search

Leonardo Zia ([lz@scancoin.it](mailto:lz@scancoin.it)), SCAN COIN

Maria Persson ([maria.persson@swedishtrade.se](mailto:maria.persson@swedishtrade.se)), Exportrådet

A short background to those of your who receive this invitation for the first time:

To establish a meeting place for young-minded professionals in the greater Milan area, being Swedish or working for Swedish companies, an aperitivo was organized in June 2002. Building and maintaining a professional and private network is time consuming and usually hard to fit in to the otherwise busy today's time schedule. Through these semi-regular gatherings, we can relax, build relations and benefit from our professional and personal backgrounds. During autumn 2002, invitations for aperitivo have been extended to all Nordic natives.

### THE NEW VOLVO XC90

NOTHING QUITE PREPARES YOU FOR THE VOLVO XC90, BUT WE'LL TRY.

PURE ADVENTURE AND UNDILUTED LUXURY STILL LEAVE ROOM FOR FOCUSED, ON ROAD PERFORMANCE FOR UP TO 7 PEOPLE..

The new Volvo XC90 is the first SUV (Sport Utility Vehicle) from Volvo Cars. It has been developed with a focus on the core Volvo Car values: safety, environmental consideration, versatility and quality. It is built on a passenger car base, so it has the ride and road holding, safety and emissions of a passenger car. Designed for on road and off road, the Volvo XC90's combination of electronically controlled four-wheel drive and 218 millimetres of ground clearance gives it the ability to keep moving when the going gets tough. It has space for up to seven occupants and a high degree of flexibility, making the Volvo XC90 the ideal vehicle for those who want to extend the traditional boundaries of their car use.

It features a wealth of innovative new safety solutions to keep you in control. The Volvo XC90's "cab forward" design gives the maximum possible interior space for a car of this size.

**Svezia Car** is the ideal car dealer responding to your needs, working with professionalism, efficiency and reliability.
